EXPERIENCE

Shaurya Technosoft

Mar. 2026 – Present

DevOps Engineer

Pune, IN

- Designed and implemented GitHub Actions CI/CD pipelines, improving deployment reliability and release consistency across multiple applications.
- Automated Kubernetes application deployments using Helm and Argo CD, streamlining GitOps workflows for staging and production environments.
- Optimized Docker build pipelines and caching strategies, accelerating multi-architecture image builds and reducing CI execution time.
- Engineered Kubernetes ingress and Envoy Gateway solutions, enhancing secure service exposure and traffic management.
- Enhanced CI/CD security by integrating vulnerability scanning and secure secrets management, strengthening application supply chain protection.
- Implemented centralized monitoring and alerting with Grafana and Prometheus, improving incident detection and troubleshooting efficiency.
- Administered PostgreSQL databases and automated infrastructure provisioning using Ansible, improving platform reliability and operational efficiency.
- Upgraded Kubernetes and Argo CD platforms while developing operational documentation, ensuring platform stability and standardized DevOps practices.

LetsReflect

Nov. 2022 – Feb. 2026

System Administrator

Pune, IN

- Managed Linux-based production infrastructure, improving system availability and operational stability.
- Designed and implemented GitHub Actions CI/CD pipelines, improving release consistency.
- Containerized applications using Docker and administered Kubernetes clusters with Helm and Argo CD, improving deployment scalability and reliability.
- Implemented centralized monitoring using Prometheus, Grafana, Loki, and Uptime Kuma, reducing incident resolution time.
- Administered MySQL and PostgreSQL databases, improving performance and reliability.
- Configured secure reverse proxy architectures using Nginx and Let's Encrypt SSL.
- Automated infrastructure provisioning using Ansible and Proxmox VM templates.
- Implemented HashiCorp Vault and managed developer platforms including Gitea, SonarQube, Nexus, Harbor, and Vaultwarden, strengthening development workflows.

Maharashtra Knowledge Corporation Limited (MKCL)

Sep. 2018 – Oct. 2022

Information Technology Fellow

Pune, IN

- Provided Linux and Windows administration, improving operational continuity.
- Managed Apache, Nginx, Tomcat, and IIS web servers for secure and optimized performance.
- Administered Active Directory and managed MSSQL, MySQL, MongoDB, and MariaDB databases, improving availability and access management.
- Automated deployments using Jenkins, Ansible, and Rundeck, reducing manual intervention.
- Installed and configured Windows/Linux servers and essential network services while resolving application performance issues.

EDUCATION

Savitribai Phule Pune University

Pune, IN

Master of Science in Computer Science

Sep. 2021 – Oct. 2023

YCMOU University

Pune, IN

Bachelor of Science in Computer System Administration

Aug. 2018 – Jul. 2021

TECHNICAL SKILLS

DevOps: GitHub Actions, Jenkins, Ansible, CI/CD, Argo CD, Helm

Containers: Docker, Kubernetes

Cloud: AWS (EC2, Route53), GCP, DigitalOcean, Proxmox

Systems: Linux, Windows Server, Nginx, Apache, Tomcat, IIS

Monitoring: Prometheus, Grafana, Loki, Nagios, Zabbix, Uptime Kuma

Databases: MySQL, PostgreSQL, MSSQL, MongoDB, MariaDB

Networking: Reverse Proxy, SSL/TLS, Firewall, Network Troubleshooting
